Experience

Cloudistics Inc.

Interaction Designer / July 2016 - Present

- Joined the enterprise startup as the 2nd Interaction designer.
- Designed several features across the web-based platform for managing one-of-a-kind completely integrated cloud management solution.
- Presented concepts and design artifacts in form of high-fidelity wireframes and detailed interaction flows to product stakeholders to solicit feedback and incorporate that feedback in future design iterations.
- Provided support on ongoing projects to clarify development concerns and made design improvements to account for them.
- Collaborated with other designers to improve the design process within the team and enhance collaboration with other teams.

Key Product-level Contributions:

- Co-designed workflows and sand-boxed user environments for role-based management of product capabilities.
- Designed the product search experience to work across 14 different types of objects and 42 searchable properties.
- Designed custom visualizations for representing product-specific statistics.

Kodak Alaris (formerly Eastman Kodak)

Interaction Design Intern / May - Aug 2015

- Conducted user research to deliver high fidelity prototypes and design recommendations for new concepts to enhance user engagement in the company's flagship mobile app, Kodak Moments.
- The design concepts received great interest by users during user-testing and appreciation from higher leadership within the company.

Infosys Labs, Infosys Limited

UX Designer & Developer / Oct 2011- June 2014

User Experience Center of Excellence

- Created wireframes, prototypes and presentations for showcasing concepts during client interactions.
- Facilitated the entire UX process in a small team incubated within Infosys Labs

Infosys Labstorm

- Core contributions on their video-based enterprise social networking platform as a full-stack developer and experience designer.

Accolades

Featured Speaker, MACUL 2016, Grand Rapids

Represented the School of Information and the University of Michigan at SXSW 2015, Austin

Education

University of Michigan, Ann Arbor

Master of Science in Information, APR 2016
Human Computer Interaction
GPA: 3.7/4.0

Visvesvaraya Tech. University, India

Bachelor of Science in Engineering, JULY 2011
Information Science

Skills

User Research

Think aloud protocol, Focus groups, Contextual inquiry, Participatory design, Personas, Heuristic Evaluation, Usability Testing

Design

Wireframing, Storyboarding, Rapid prototyping, Responsive web design, Illustration, Branding & Identity, Data visualization

Tools

Adobe Creative Cloud (Illustrator, Photoshop, Indesign, After Effects), Sketch, Proto.io, Invision, Framer.js, Axure, UserZoom

Programming

HTML 5, CSS3, Javascript, jQuery, D3.js

Leadership

Co-Lead Organizer,

World Information Architecture Day 2016, Ann Arbor

Student officer,

Student Organization of Human Computer Interaction (SOCHI), School of Information

Infosys Labs

Led the design and development of Concept App for Aetna during client pitch through Infosys Labs

Volunteer,

UX India Conference 2014, Bangalore
